Dear Antonio,

I hope it goes well with your book of climbs, and you could use photos I sent you in October.

Some days ago I received a new AAJ and, of course, I checked what's new in the Andes. I have seen your correction about Oro del Inca in Huandoy Sur. For me this is a new information: I couldn't find any data about other routes or climbers - except Astier - in that face before my ascent. Could you please send me more details (and if possible, photos) about climbs you mentioned ? I hope this will help to explain the history of climbing in this face.

I would also like to ask you for a photo of Chacraraju North face (with routes) and Chopicalqui East Face - if there are any routes climbed in this huge face (I think it's still unclimbed).

I hope it's not too much. Thank you, and best regards
